THE HOME

A newly furnished penthouse on the top floor of a historic building, 50 metres from the Duomo, with art galleries, restaurants and cafés right below. You go up in the private lift; new windows keep out the noise of the centre and the roof skylights let the air circulate.

The large living room, with wooden ceilings, exposed beams and terracotta floors, has a sofa, two armchairs and a smart TV, plus a dining area with a table for six. The recently renovated kitchen is fully equipped with appliances and utensils so you can cook just as you would at home.

The two double bedrooms have queen-size beds, mattress toppers and pure cotton linen; one has a desk, the other a smart TV. In the sleeping area there is also a mezzanine with cushions for reading or resting. There are two bathrooms, both with shower and courtesy toiletries. Free parking in a large car park nearby or, on request, in a private garage. We welcome you in person on arrival.

The area: Pietrasanta

The “little Athens” of Versilia: a town of art where marble and bronze have been worked for centuries. Artisan workshops, galleries and open-air sculptures make the old town a museum to explore on foot. The sea at Marina di Pietrasanta is just a few minutes away.
